DETAILED ACTION

Notice of Reply

1. In response to the Reply filed on 03/04/2008, withdrawn claim(s) 52-63 is/are acknowledged. The following is/are set forth:

Election/Restrictions

2. Applicant's election without traverse of Group I, drawn to claims 1-51, and Species A, drawn to Figure 1, in the reply filed on 03/04/2008 is acknowledged.

3. Claims 52-63 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on 03/04/2008.

4. The Examiner notes **the previous Election of Species Requirement is withdrawn** for failing to fully identify a complete set of patentably distinct Species. Thus Applicant's election without traverse of Species A is moot. The Examiner sets forth the following:

5. This application contains claims directed to the following patentably distinct species.

- Species AA: embodiment drawn to Figure 1;
- Species BB: embodiment drawn to Figure 2;
- Species CC: embodiment drawn to Figure 3;
- Species DD: embodiment drawn to Figure 4;

- Species EE: embodiment drawn to Figure 5; and
- Species FF: embodiment drawn to Figure 6.

6. The species are independent or distinct because claims to the different species recite the mutually exclusive characteristics of such species. In addition, these species are not obvious variants of each other based on the current record.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.

There is an examination and search burden for these patentably distinct species due to their mutually exclusive characteristics. The species require a different field of search (e.g., searching different classes/subclasses or electronic resources, or employing different search queries); and/or the prior art applicable to one species would not likely be applicable to another species; and/or the species are likely to raise different non-prior art issues under 35 U.S.C. 101 and/or 35 U.S.C. 112, first paragraph.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species to be examined even though the requirement may be traversed (37 CFR 1.143) **and (ii) identification of the claims encompassing the elected species**, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

The election of the species may be made with or without traverse. To preserve a right to petition, the election must be made with traverse. If the reply does not distinctly

and specifically point out supposed errors in the election of species requirement, the election shall be treated as an election without traverse. Traversal must be presented at the time of election in order to be considered timely. Failure to timely traverse the requirement will result in the loss of right to petition under 37 CFR 1.144. If claims are added after the election, applicant must indicate which of these claims are readable on the elected species.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the species unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other species.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141.

7. A telephone call was made to Scot Wickhem on 05/19/08 to request an oral election to the above restriction requirement, but did not result in an election being made.
